How to Order From SEWP

In the typical SEWP ordering process, the end-user determines a requirement and generates a purchase request (PR). The PR, along with any necessary funding information, is then sent to that agency's procurement office and a delivery order (DO) is issued. The SEWP Program Management Office (PMO) reviews, processes, and tracks issued DOs and forwards them to the Contract Holder(s). The following chart, developed by the SEWP PMO, shows the SEWP process from end to end.
Note: The NASA SEWP PMO does not issue DOs; these must be issued through the issuing agency's procurement office or through assisted acquisition services.

Acquisition Success Begins With Tribalco and SEWP VI

Quoting and Procuring Support
